

## Slide-On BMA Jack to SMA Male Adapter

Slide-on BMA jack to SMA male adapter part number FMAD1107 from Fairview Microwave is in-stock and ships same day. This Fairview BMA to SMA adapter has a jack to male gender configuration and is built of durable stainless steel. FMAD1107 BMA jack to SMA male adapter operates to 18 GHz. The Fairview Microwave RF adapter provides excellent VSWR of 1.25:1 maximum.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
