

## TNC Male to TNC Female Adapter

TNC male to TNC female adapter part number SM5708 from Fairview Microwave is in-stock and ships same day. This Fairview TNC to TNC adapter has a male to female gender configuration. SM5708 TNC male to TNC female adapter operates to 9 GHz. The Fairview Microwave RF adapter provides excellent VSWR of 1.25:1 maximum. Our TNC to TNC RF adapter can also be used as a connector saver to extend equipment life.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
